

## Executing Client Strategies

### Specializing In the Following:

#### Pallet Rack Repair

#### Dock Doors + Gates

#### P.M. Programs

### Consistent Upkeep and Uptime

After your employees, perhaps your most expensive and important asset is your facility. When it comes to facility maintenance, the team at J&J Safety has seen and done it all. No job too big, no task too small! At J&J, we understand the importance of a Preventative/Proactive approach to your facility maintenance and can help you plan and design a program to your exact needs.

Our team can also respond quickly to the Corrective/Reactive scenarios that are inevitable during the life cycle of every facility. Our experienced and knowledgeable project managers can assist you and your team with all your facility maintenance needs.
